

Assignment 3

My Movie Theater Website

Concept:

Create a small webpage that looks like a **movie theater screen** — with your name as the theater name, and a **video trailer** (e.g., your favorite movie or animation). Style it like an actual cinema screen using borders, background lights, and fun fonts.

What They'll Learn:

- Using the `<video>` tag
- Applying CSS styling and centering
- Using Google Fonts
- Designing with borders, shadows, and background gradients
- Semantic HTML with `<section>`

Structure:

```
my-movie-theater/  
├── index.html  
├── css/  
│   └── style.css  
├── media/  
│   └── trailer.mp4
```

Bonus Fun Ideas:

- Add a `marquee` or blinking lights around the video
- Include buttons like "Play Again", "Rate Movie"
- Use fun emojis in the heading 🍿 🎬 🎮
